DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6 September 2006 has been entered.

2. The indicated allowability of claims 2, 3 and 25, 27, 29, 31 is withdrawn in view of the newly discovered reference(s) to Bradford. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. The claims include the use of the word “for” which indicates intended use. A claim containing a “recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus” if the prior art apparatus teaches all the structural limitations of the claim. *Ex parte Masham*, 2 USPQ2d 1647

Art Unit: 3611

(Bd. Pat. App. & Inter. 1987).

If Applicant(s) desire to give the phrase patentable weight, the Examiner respectfully recommends Applicant(s) remove "for" from the phrase where intended use is not desired.

5. Claims 1-5, 18, 21, 25, 27, 29, 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Bradford 2,091,668.

Bradford discloses a trailer stabilizing device extending between a towing vehicle and a fifth-wheel trailer, said trailer-stabilizing device having:

a linkage 40 extending between the towing vehicle and the trailer;

a dampener 22 operably connected between said towing vehicle and said fifth wheel trailer defining an engaged position in which said dampener applies a dampening force to the fifth wheel trailer,

said dampener having a disengaged position in which the dampener is disconnected between said towing vehicle and said fifth wheel trailer in which the dampening force is not substantially applied to the fifth-wheel trailer,

and a regulator 38;

wherein said trailer-stabilizing device is secured between the towing vehicle and the fifth wheel trailer at a position spaced apart from a hitch connecting the towing vehicle to the trailer.

Allowable Subject Matter

6. Claims 6-17, 19-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 22-24, 26, 28, 30, 32 are allowed.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Hurley whose telephone number is 571-272-6646. The examiner can normally be reached on Monday-Friday 9:30-5:00.
